

NVQ Level 2 Nail Technician

Course Category

This part time programme is for Nail Technicians already, or just starting in the industry without a nationally recognised qualification

Course Content

During the course you will cover a variety of topics, covering the professional skills necessary for practising Nail Technology. You will complete modules in the following areas:

- Personal development
- Manicure
- Pedicure
- Health & Safety
- Reception Skills
- Anatomy and Physiology
- Basic Nail Extensions; and maintenance procedures (fibreglass)
- Nail Art
- Make up
- Promoting products and services

Due to a recent increase in demand for Nail Technicians, people in this occupation are seen as professionals in their own right. If you consider yourself to be sociable and artistic with an interest in fashion and following fashion trends, you are well suited to this rewarding occupation

Assessment will be carried out in a variety of methods, including observation of practical work, written questions, projects and building a portfolio of work.
